PROFILE

Full Stack Ruby on Rails Engineer with 5+ years of experience building SaaS/PaaS products, PostgreSQL-heavy systems and external integrations. Strong backend and infrastructure focus with practical ownership across web, mobile and operations. I use AI coding agents, AGENTS.md, MCP tools, ADRs and business contracts to understand legacy systems and deliver tested changes safely.

CORE EXPERTISE

Backend: Ruby, Ruby on Rails, REST, SOAP, WebSocket, RSpec, Swagger/OpenAPI

Data and async: PostgreSQL, materialized views, Redis, Sidekiq, RabbitMQ

Frontend and mobile: JavaScript, Vue, Vite, Stimulus, Hotwire, Turbo Native, Angular, Ionic, Capacitor, Telegram Mini Apps

Infrastructure: Linux, Docker, Docker Compose, CI/CD, Nginx, Traefik, Consul, ELK, Zabbix, Errbit, DigitalOcean

PROFESSIONAL EXPERIENCE

Pinecode

Jun 2026 - Present

Full Stack Developer

- Develop an omnichannel poker platform spanning Rails backend, web interfaces, mobile flows, Telegram Mini App and administrative tools.
- Use ADRs, business scenarios and explicit acceptance criteria to define domain boundaries before implementation; refactor legacy code without breaking public contracts.
- Apply AI coding agents, AGENTS.md, MCP tools and isolated Git worktrees for code discovery, test preparation, documentation, review and parallel feature work.

DRCT

Jan 2026 - Apr 2026

Backend Engineer / L2-L3 Integration Support

- Developed and supported airline and NDC integrations through REST, SOAP and complex XML across several monolithic applications.
- Worked on the gateway layer and diagnosed production incidents using logs and integration traces; improved error handling, retries, timeouts and fallback scenarios.

Rubetek

Aug 2025 - Dec 2025

Backend Developer

- Developed an internal platform covering product development, manufacturing, sales, analytics and the employee portal.
- Designed backend logic and APIs; improved search, filtering, aggregation, dashboards, module integration and legacy maintainability.

PROFESSIONAL EXPERIENCE CONTINUED

DRCT

Feb 2025 - Apr 2025

Ruby Backend Developer

- Integrated airline, GDS and NDC provider APIs and strengthened error and retry handling in integration-heavy workflows.

ODIN

Apr 2021 - Jan 2025

Ruby on Rails Developer

- Built and supported a Rails 7 / Ruby 3 SaaS/PaaS platform for property and facility management, including service requests, assets, inspections, notifications, analytics and payments.
- Designed REST APIs and real-time WebSocket notifications; implemented role- and location-aware alerts, Sidekiq/Redis jobs and periodic processing.
- Optimized PostgreSQL queries, indexes, aggregations, materialized views and archived-data flows to reduce latency in critical scenarios.
- Supported production reliability through ELK, Zabbix, Errbit, SLO/SLI practices, incident analysis, Docker and GitLab CI/CD.
- Delivered Vue/Vite interfaces and Angular/Ionic/Capacitor mobile scenarios, including QR/NFC workflows and App Store / Google Play releases.

Softproekt

Jan 2021 - Mar 2021

Ruby on Rails Developer Intern

- Completed a Rails development internship and contributed basic MVC and backend functionality.
